

Engineering

"Scientists dream about doing great things. Engineers Do Them!"

James Michener

ENGINEERING AND TRESTLES

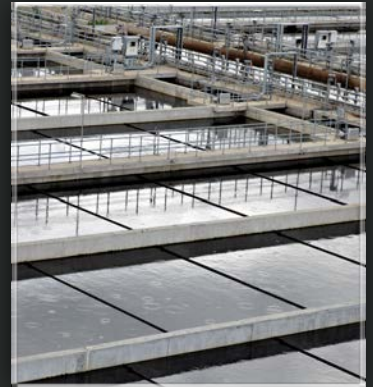

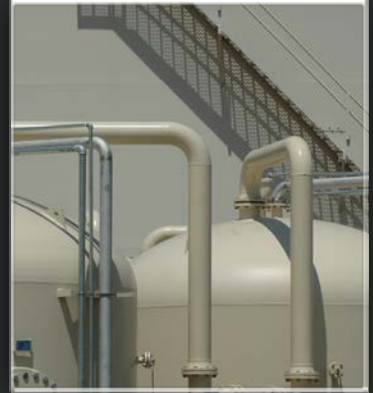

Trestles is a civil and environmental engineering consulting firm founded in Nashville, Tennessee with the vision of creating a Team of talented professionals to provide creative solutions for a diverse market. We are continuously conducting projects throughout the United States and abroad. We apply an unparalleled focus on each project's needs and goals in a cohesive and collaborative manner while being cost effective and expeditious.

Engineering is one of our Team's first loves. Our professionals have an extensive portfolio of projects where a familiarity with jurisdictional regulations, a commitment to value-engineered designs, multi-disciplined teamwork, and experienced management has lead to a quality that clients can depend on.

Our background of experience allows Trestles to offer a wide range of engineering services for your project. We invite you to review the services below and let us know how our Team may help you on your next project.

Value Engineering

"TEAM"

The core of our company is Team. We approach engineering, our business and our projects with this core value.

This approach has allowed us to develop key relationships with clients and other professionals. We strive to provide satisfying growth opportunities and a role in shaping our mutual future.

TRESTLES LLC

To satisfy these goals, we offer turn-key services to our clients and fellow team members. More and more clients are seeking turn-key approaches so they can concentrate on the business they do best.

Our Team consists of more than just our professionals and includes contractors, architects, testing professionals, vendors and suppliers.

Due to our pursuit of the highest level of quality, only the best team members will suffice. We are constantly looking for individuals and teaming partners that have the expertise, drive, passion, and commitment to quality that our Clients, our Team and Trestles demand.

"Strive for PERFECTION in everything you do. Take the best that exists and make it better. When it does not exist, design it!"
